

The FCC should not implement any proposal that would lessen Indiana's Telephone Privacy law protections. Indiana's Telephone Privacy law has improved our time at home by reducing the number of unwanted solicitation calls. I would love to be able to totally eliminate all types of solicitation calls. It is bad enough receiving the enormous amount of unwanted solicitation through the US Postal Services, but we should not have to receive ANY solicitation calls on our privately paid residential telephones.

Please to not lessen Indiana's Telephone Privacy law protections IN ANY WAY!
